Tableau Fundamentals

SQL Fundamentals for Data Analysts

Tableau Fundamentals Case Study - Ecommerce Analysis

Mar 23, 2026

Bhishek Shibdeen

has successfully completed the online Specialization

BI Essentials for Finance Analysts (Tableau Edition)

This specialization helps analysts advance their data analysis skills by learning to manipulate, transform, and visualize data in Tableau, one of the most widely used data visualization tools. Analysts will also learn how to source data from a database using SQL. Finally, students will complete a case study evaluating the key metrics of an E-commerce company, and creating two dashboards that can be shared as part of a personal project portfolio.
